

Considerations for a Grant Rubric

Per the grant announcement, grant responses will be scored “according to the application requirements and in accordance with the Wisconsin model of youth justice.”

Selection criteria, as noted in the grant announcement:

1. Budget Detail/Narrative/Cash Match
2. Facility/Geographical Information
3. Assessment of Resources/Programming
4. Project Narrative and main summary
5. Implementation Plan
6. Program Sustainability
7. Evidence of local support

Questions for consideration:

- Should we have a qualitative or a quantitative rubric?
- For a quantitative rubric, how many points should each section be rewarded?
- How should the application requirements be weighed in comparison to the Wisconsin model?
- Are there any other factors we would want to include for scoring?

Potential example:

APPLICATION REQUIREMENTS	TOTAL: 750
Budget Detail/Narrative/Cash Match	60
Facility/Geographical Information	90
Assessment of Resources/Programming	150
Project Narrative and main summary	150
Implementation Plan	120
Program Sustainability	90
Evidence of local support	90
WISCONSIN MODEL	TOTAL: 250
TOTAL	1000 points
